Some amazing facts

about leather

Imagine the possibilities with La-Z-Boy Leather.

LEATHER OUTLASTS
FABRIC
FOUR-TO-ONE

fact 1

Leather is 50% stronger than other upholstery and could have a useful life of 15–20 years.

fact 2 LEATHER OFFERS
YEAR ROUND
COMFORT

Leather “breathes” so it stays cool in the summer and warm in the winter.

LEATHER IS
EXTREMELY
DURABLE

fact 3

Strong enough to resist tearing, even along the seam lines, leather has natural oils that prevent cracking, flaking, tearing or peeling.

fact 4 LEATHER AGES
WELL

Leather is very flexible, so it will retain its shape and look new for years. Plus, unlike fabric, it acquires a natural patina and becomes softer with age.

LEATHER COLOR
STAYS VIBRANT

fact 5

Each leather hide is finished with special dyes to create a deep, rich color that will remain beautiful throughout the life of the leather.

fact 6 EASY TO
CARE FOR

Leather simply requires a mild dusting or wiping to keep it looking good.

Choosing a leather that's right for you.

PERFORMANCE

Tough enough for everyday life, these premium leathers are crafted to withstand the challenges of homes with small children and pets. Ideal for people who prefer a smoother, more consistent appearance, Performance leathers have a protective coating which keeps it looking great for many years to come.

AUTHENTIC

These premium leathers are one-of-a-kind creations for people who appreciate rare, natural beauty and unique character. Variations in color, grain and visible markings, including wrinkles and scars, give each hide its own distinct look. Luxuriously soft and supple to the touch, Authentic leathers have not been altered ensuring that each hide has a distinctive look all its own.

Care and Cleaning Guidelines

- Keep it clean – Dust and vacuum often, using a crevice tool in seams.
- For weekly dusting, use a clean, soft, lint-free cloth slightly dampened with distilled water and wipe area gently
- Avoid direct exposure to sunlight. Although leather is resistant to fading, direct prolonged exposure to the sun will cause any material to fade.
- Keep leather furniture at least 12" away from radiators and other heat sources. Avoiding intense heat will help prevent the leather from drying and possibly cracking.
- Clean spills quickly. Just as with any upholstery, leather can become stained if spills are not cleaned up immediately. If spills do occur, attend to them quickly – remembering to blot, not rub, the stain.
 - 1) Use a solution of 1/2 mild soap, such as Neutrogena or Ivory, and 1/2 distilled water on a slightly dampened cloth or sponge, working up a foam to clean.
 - 2) Avoid excessive rubbing with a cloth. Blot any remaining soap residue with a clean cloth dampened only with clear distilled water. Blot until dry, repeating as necessary.
 - 3) Contact a professional leather cleaning service for more difficult stains.

Follow these easy care guidelines to keep your leather furniture looking its best for years to come.
