LA-Z-BOY REPORTS FISCAL 2008 FIRST-QUARTER RESULTS

MONROE, MI. August 14, 2007—La-Z-Boy Incorporated (NYSE: LZB) today reported its operating results for the first fiscal quarter ended July 28, 2007. Net sales for the quarter were \$344.4 million, down 12.6% compared with the prior-year period. The company posted a loss of \$8.7 million, or \$0.17 per share, which includes a restructuring charge of \$0.04 per share, related to the previously announced closure and consolidation of various facilities and retail locations. In last year's first quarter, the company posted earnings of \$2.3 million, or \$0.04 per share. This included \$0.02 from discontinued operations, primarily resulting from a gain on the sale of a division, as well as a tax benefit from a change in Canadian tax law, which reduced the effective income tax rate for the period.

Kurt L. Darrow, La-Z-Boy's President and Chief Executive Officer, said: "Against the backdrop of ongoing challenging business conditions pervasive throughout the furniture industry, our results reflect a significant drop in volume, which made it difficult to absorb our current fixed costs. Additionally, our first quarter is typically our slowest reporting period, due to seasonality factors, including the scheduled vacation shutdown in July at our plants, and is not indicative of our expectations for the full fiscal year."

Upholstery

For the fiscal 2008 first quarter, sales in the company's upholstery segment decreased 13.8% to \$254.8 million compared with \$295.4 million in the prior year's first quarter. The segment's operating margin decreased to 3.5% from 6.0% in the year-ago period. Darrow stated, "We are continuing to address our cost structure and are executing on our strategic plan to convert our La-Z-Boy branded facilities to the cellular production process. The conversion is on schedule and will be completed in our fiscal fourth quarter."

Darrow continued, "Our incoming order rate in July improved versus the first two months of the quarter and, importantly, we believe today's order rate is more reflective of actual demand as retailers have worked through their high inventory levels. In the meantime, however, we further aligned our capacity this quarter, by closing four facilities. While our capacity today more closely matches the industry's overall dampened demand, we did experience manufacturing inefficiencies in the quarter as we shifted production to other plants."

For the quarter, the La-Z-Boy Furniture Galleries® store system, which includes both company-owned and independent-licensed stores, opened three new stores, relocated and/or remodeled three and closed six, bringing the total store count to 333, of which 196 are in the New Generation format. For the second quarter 2008, the network plans to open 11 New Generation format La-Z-Boy Furniture Galleries® stores, of which five will be new stores and six will be store remodels or relocations.

System-wide, for the second calendar quarter, including company-owned and independent-licensed stores, same-store written sales, which the company tracks as an indicator of retail activity, as well as total sales, were down 7%.

Casegoods

For the first quarter, casegoods sales were \$53.6 million, down 12.2% from the prior year's first quarter. The segment's quarterly operating margin was down slightly to 4.9% versus 5.3% in last year's comparable period.

Darrow commented, "On a double-digit sales decline, our operating margin decreased only slightly, reflecting the higher variable cost structure in the business combined with greater efficiencies at our domestic operations. However, in an effort to control inventory, our domestic facilities took additional down days beyond the normal vacation shutdown. As we move into the Fall, we are focused on increasing revenues through new product introductions and expanding our channels of distribution."

Retail

For the quarter, retail sales were \$45.2 million, down 13.4% compared with last year's comparable period. The retail group posted an operating loss for the quarter and its operating margin was (22.3%). The segment's results were primarily impacted by significantly lower sales, which made it difficult to cover fixed costs, particularly the higher occupancy costs associated with the company's new stores.

Darrow stated, "We are making ongoing changes to our retail business model. We are removing significant costs through the consolidation of our warehouses and IT systems and are opening additional stores to garner better penetration in each market. However, for our performance to improve to an acceptable range, our current base of stores needs to perform at higher volume levels."

During the first quarter, the company's retail segment opened one new company-owned store, and closed two. At the end of the first quarter, the company owned 69 stores, including 48 in the New Generation format, or about 70%, versus 68 company-owned stores last year at this time, of which 31, or 45%, were in the new format

Restructuring

During the quarter, a pre-tax restructuring charge of \$3.7 million was recorded. The charge is primarily related to expenses associated with the closure and consolidation of manufacturing and retail facilities, including related contract termination costs for leases, severance and benefits and the write-off of certain leasehold improvements.

Balance Sheet

At the end of the fiscal 2008 first quarter, the company's debt to capitalization ratio was 24.1%. Inventories stood at \$202.8 million, down from \$238.8 in the prior-year quarter and up slightly from fiscal year end 2007. Cash used for operations during the quarter was \$19.4 million mainly as a result of significantly lower payables and accrued liabilities which relate to the lower sales volume. The company did not repurchase shares in the fiscal first quarter and has authorization to purchase approximately 5.4 million additional shares.

Business Outlook

Commenting on the company's business outlook, Darrow said: "The external environment for home furnishings remains challenging, although it is important to note that we do not believe today's revenue stream is indicative of the run rate for the next 12 to 18 months. We will continue to adjust our cost structure based on anticipated future demand while focusing on superior levels of service to our customers. As we announced last quarter, we expect sales for the fiscal 2008 year to be down 5% to 10% compared with fiscal 2007 and expect earnings per share to be in the range of \$0.45 to \$0.60 per share compared with \$0.38 per share from continuing operations in fiscal 2007. This estimated range does not include restructuring charges, potential income from any anti-dumping monies or gains/losses on the sale of discontinued operations."

Forward-looking Information

Any forward-looking statements contained in this news release are based on current information and assumptions and represent management's best judgment at the present time. Actual results could differ materially from those anticipated or projected due to a number of factors. These factors include, but are not limited to: (a) changes in consumer confidence; (b) changes in demographics; (c) changes in housing sales; (d) the impact of terrorism or war; (e) continued energy price changes; (f) the impact of logistics on imports; (g) the impact of interest rate changes; (h) changes in currency exchange rates; (i) competitive factors; (j) operating factors, such as supply, labor or distribution disruptions including changes in operating conditions or costs; (k) effects of restructuring actions; (l) changes in the domestic or international regulatory environment; (m) ability to implement global sourcing organization strategies; (n) fair value changes to our intangible assets due to actual results differing from those projected; (o) the impact of adopting new accounting principles; (p) the impact from natural events such as hurricanes, earthquakes and tornadoes; (q) the impact of retail store relocation costs, the success of new stores or the timing of converting stores to the New Generation format; (r) the ability to procure fabric rolls or cut and sewn fabric sets domestically or abroad; (s) the ability to sell the discontinued operations for their recorded fair value; (t) those matters discussed in Item 1A of the company's 10K and factors relating to acquisitions and other factors identified from time to time in our reports filed with the Securities and Exchange Commission. We undertake no obligation to update or revise any forward-looking statements, either to reflect new developments or for any other reason.
